

Dear Store Manager,

I would like to request that your store carry MyLife Bio's product range – the first-mover in the dairy-free simulant space in Australia! MyLife's delicious BioCheese products are made from 100% dairy-free ingredients and are too suitable to a plant-based diet. In addition to this, they are a delicious culinary replacement for the health conscious, allergy sensitive consumers or those avoiding dairy or gluten for other reasons including religious or ethical beliefs.

I frequently shop at your store and would love to find MyLife products in your chilled aisle. Please contact their national distributor Manassen Foods on 1800 888 606 if you have any additional queries.
